DETAILED ACTION

Allowable Subject Matter

Claims 1 – 6 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1, 2, 5, and 6, the prior art does not disclose detecting "a specific note" in the automatic performance data and switching sections of the accompaniment pattern in accordance with the detected "specific note." In contradistinction, the prior art shows manually changing accompaniment sections (i.e., non-automatic performance data). Furthermore, while it is well-known to change patterns using event data, this event data is not "a specific note." As understood by the Examiner, this feature allows a user of the instant invention to simultaneously play a note (to be heard) and use the same note data to change accompaniment patterns (it should also be noted that the "specific note" can be placed anywhere between bar lines. In other words, the note data has two functions. The prior art requires two data events to accomplish the same task. Regarding claims 3 and 4, see the Office Action mailed July 27, 2006 for Reasons for Allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
